

GENIUSCADDY

Developed for golfers by golfers.

GeniusCaddy is a highly effective software geared towards improving golf scores and aiding golfers build a winning game strategy. Operating on a variety of platforms that include desktop, laptop, mobile phone and Palm PC, GeniusCaddy is as flexible as it is innovative in making a REAL difference to the lives of millions of golfers throughout the world.

Conceived and developed with the golfer in mind GeniusCaddy harnesses the latest developments in sports science, neuro-psychology and I.T. to help bring about the transformation necessary in everyone's game.

Its quick touch, fast response, fingertip controls give access to statistics which are at professional level in the long game, short game, putting and even wasteful penalty shots that are incurred. This fast, powerful and interactive golf programme is designed for golfers of all standards who want to improve their game.

Once you input a couple of games you can choose any round to review, analyse and graphically compare hole by hole, green by green individually or against previous rounds. A valuable exercise is to contrast your own play against the dream-round you aspire to or how a professional would have fared. The competitor in you can also evaluate your own golf against your rivals, whether they take the form of a fourball partner or the next round of the club matchplay.

From first use of GeniusCaddy you will unravel the expensive errors which cost you shots, confidence and enjoyment on the golf course. By being aware of these recurring mistakes, a little extra care and attention will shave shots of your scores.
